

Defect Report

Defect ID: DEF-001

Defect Title: Application accepts an invalid email format during Sign Up.

Module: Sign Up

Environment: Windows 10, Google Chrome

Severity: High

Priority: High

Description:

The application accepts an invalid email address containing special characters (e.g., `test$123@gmail.com`) and allows the user to proceed to the Sign Up page instead of displaying an email validation error.

Precondition:

The user is on the Sign Up page.

Steps to Reproduce:

1. Open the Sign Up page.
2. Enter `test$123@gmail.com` in the email field.
3. Click **Continue**.

Expected Result:

The application should display an "**Invalid email format**" error message and should not allow the user to continue.

Actual Result:

The application accepts the invalid email address and redirects the user to the Sign Up page.

Status: Open
